

## After Graduation

A secondary school student registered as an apprentice by MTCU maintains her/his status, even if she/he no longer has an employer/sponsor. However, registration with another employer/sponsor will be required to complete the Apprenticeship. Hopefully the student will continue post-secondary training through Apprenticeship with little or no time lost. Wage subsidies may be available for employers who sponsor apprentices (see the inside back cover).

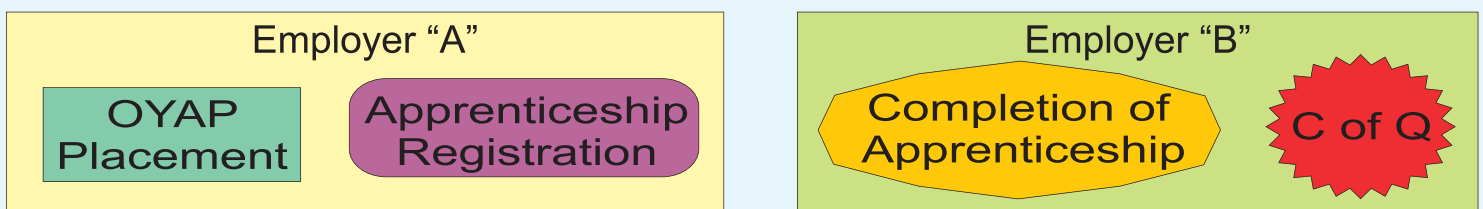

### OYAP Possibilities

#### Scenario 1

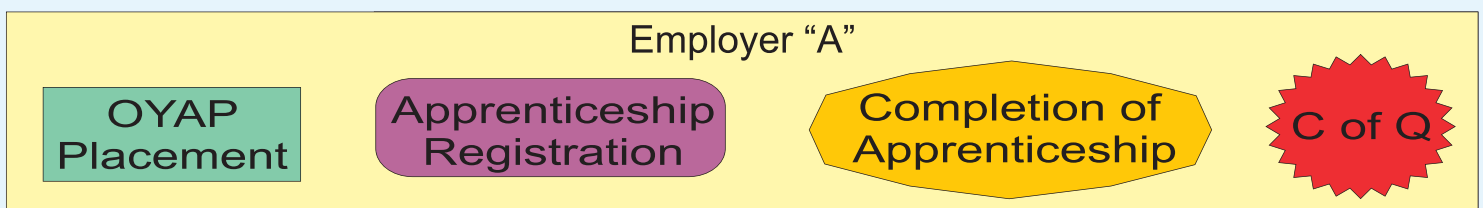

- Student completes an OYAP placement with an employer and gains trade related experience.
- After the student graduates from high school she/he will need to find another employer to provide an Apprenticeship.

#### Scenario 2

- Student gains trade related experience and is registered as an apprentice during the OYAP placement (saves registration fee).
- After the student graduates from high school she/he will need to find another employer in order to complete the Apprenticeship.
- Apprenticeship schooling will be arranged for the student after graduation from high school.

#### Scenario 3

- Student gains trade related experience and is registered as an apprentice during the OYAP placement (saves registration fee).
- Student graduates from high school and goes on to complete an Apprenticeship with the OYAP employer.
